

Interior Surface Protection

ACTIV Leather, Vinyl, Fabric & Carpet Surface Coating

selectus.com.au

ACTIV Interior Coatings protect all fabric, carpet, vinyl and leather surfaces against spills and stains, as well as UV damage and discolouration. These coatings are designed to help maintain the condition of your vehicle and provide a durable barrier against whatever life throws at it.

A once-off application for a lifetime* of protection, designed to preserve and protect the interior of your new vehicle.

ACTIV Leather Coating

The lanolin formula offers deep down moisturising protection to soften and preserve the natural beauty of a leather interior.

- Protects against surface dehydration and discolouration caused by UV
- Provides an easy clean surface to remove stains and marks
- Preserves the new leather aroma
- Comes with a nationwide lifetime warranty*

ACTIV Fabric and Carpet Coating

Formulated with the bacterial protection system Bactishield, this coating will protect the surface against mould, mildew and other harmful bacteria.

- Provides a resilient and effective stain barrier against commonly consumed food and liquids
- Provides protection against surface discolouration caused by UV
- Comes with a nationwide lifetime warranty*

ACTIV Vinyl Coating

Purpose built for vinyl surfaces, this silicon-free formula that provides a lousheen, non-greasy, non-slick protective finish.

- Prevents surface dehydration and damage caused by UV
- UV stabilised against discolouration
- Comes with a nationwide lifetime warranty*
